Igor Loskutov
Fullstack Web Developer

Profile

I'm an experienced web developer with a problem-solving attitude and strong communication skills. I actively propose solutions when I see a reasonable way to improve the product and development processes. I get into new things easily; challenging myself has become a core part of my methodology.

Skills

Expert:
Typescript/Javascript, React, Node.js
Solid:
Rails, Java, AngularJS, SQL, Mongo, AWS, Git
Hobby and passionate about:
Rust, Scala, Haskell
Additional useful skills:
Linux, CI, Docker, Ansible, Nginx, project management tools

Fluent in English.

Experience

React Developer   *2021–2022*
DesignerAdvantage, Newton, US (Remote)
CRM for interior design project companies. I helped them secure funding by speeding up development.

Javascript Developer   *2014–2022*
Fiddlequest LLC, Ashland, US (Remote)
The product I've made from scratch took the business to a new level. It's currently an integral part of their education process.

Java/Javascript developer   *2016-2020*
TheHireStreet, UK (Remote).
Rental system for catering businesses and individuals.
Modernized the current Java/jQuery product (to React).

React Developer   *2018-2019*
An Ethereum based Crypto DEX. Mostly NDA..
I integrated Metamask and hardware wallets with their Ethereum contract.

Software Engineer (Javascript/Python/AWS)   *2013-2014*
Danke Games, Heidelberg, DE
Instagram stories before they were a thing. I have made the app horisontally scalable with the AWS stack.

Software Engineer (Java/Scala)   *2012-2013*
Megaplan, Moscow, RU
I wrote them a helpdesk system integrated with development task management using Atlassian JIRA plugin system.
